EXPERIENCE

Banker

April 2019 - Present

Qualified Player Services

- Oversee table games to ensure rules are followed and payouts are accurate
- Responsible for transfer of funds between banks
- input daily activity for banks to make sure records are up to date

PROJECTS

Table Games App

November 2022

- Recreated multitude of table games from Lake Elsinore Casino in the React Framework
- Makes use of state and props to keep track of bets, player turn, number of hands in play, and custom rulesets

Eorzean Cuisine App

October 2022

- Full-stack application using a database made in MongoDB, a SPA application in React, and a REST API using Node.JS and Express
- Application pulls data from database to display a restaurant themed website based on recipes from the video game Final Fantasy 14
- Uses different components and styling to represent the different cultures of Eorzea
